

Stream No. 15 (cont'd)

fair bar at mouth.

The other 6 feet wide and 3 inches deep.

Accessible about 400 feet and some of that bare rock bottom.

Some fish spawn around the half-tide mouth where the bottom is better.

Sept. 20, 1926: 2,000 fish all told here.

No visit allowed for.

Stream No. 16 (1 notice) Crab Bay in Evans Bay.

In the two parts combined is 15 feet wide and 4 inches deep.

The bottom is fine, flatish slate gravel.

Accessible only a short distance above high tide line.

5,000 feet during wet weather: dry 1,000 feet.

Shallow salt water off mouth.

Aug. 8, 1926: 1,000 fish alive and dead.

August 8, 1927: 20,000 fish in stream. 25,000 in bay near mouth.

Fish upstream 5,000 feet.

Stream No. 17 East side Evans Island, Latouche Passage. (1 notice)

There are 2 streams here, both have lagoons:

South one is 7 feet wide and 4 inches deep.

Medium fine gravel bed. Accessible 1,100 feet.

North one is 5 feet wide and 3 inches deep at lagoon outlet.

Lagoon about 600 feet long. 2 small streams at head,--one accessible about 300 feet. It takes a big tide to put salt water in the lagoon.

Sept. 3, 1927: 18,300 fish.

Stream No. 18 (No notice) East side Shelter Bay, Evans Island.

There are 3 small streams here. East one is 8 feet wide and 3 inches deep. Accessible 600 feet.

Has a fine gravel bed and has most of the fish.

West one small lagoon. Stream 4 feet wide and 2 inches deep. Good bottom. Accessible 1,000 feet. Fish thin and only up 500 feet above lagoon.

Middle one is 4 feet wide and 3 inches deep, and short.

Aug. 23, 1927: 3,520 fish.

Stream No. 19 (No notice) West head Shelter Bay, Evans Island.

Is 6 feet wide and 3 inches deep. Has a good bottom at mouth, a little coarser upstream. Is accessible about 1,000 feet.

Aug. 22, 1927: 2,000 fish.
